SYSTEM MATCHED™ FOR GUARANTEED RESULTS

Our Polishes, Protectors and Coatings are designed to bond to the surface for maximum protection, durability and performance. It’s important that the surface and pores in the gel coat are perfectly clean so the polish and protectant can properly adhere to the surface, not to the dirt, grime, old wax and oxidation or the residue left behind by an inferior cleaner. That’s why Aurora protection lasts so long.

Our specialty Cleaners, Deoxidizers and Restorers have been designed to clean and prepare the surfaces of your boat for application of our unique Marine Polishes, Coatings and Protectors. They are formulated to deep clean the pores, remove the most stubborn stains from all boat substrates and strip away old wax, surface pollutants, scuff marks, stains, streaks and oxidation, restore color and brighten white surfaces. When you apply our Polishes, Coatings and Protectors to an “Aurora Clean” boat, you get an easy to maintain surface and a finish that is the envy of everyone who sees your boat. As tough as our cleaners are on dirt, they are gentle on your boat and the environment. They are free rinsing so that no residue is left behind to impair adhesion and protection of our Polishes and Protectors. They are also biodegradable so that there is minimal impact on the environment.

Discerning boat owners only use Aurora Boat Care Products to maintain their boats and protect their investment. Boat manufacturers use and recommend Aurora products to their dealers and customers.

There are boat owners that have used Aurora System Matched™ Boat Care Products for over 15 years. They tell us that their boats look like the day they bought them and thousands of boat owners report that they were successful in restoring older abused boats to “like new” condition with Aurora System Match Products.

ENVIRONMENT FRIENDLY BOAT CARE

Aurora Marine began making Environment Friendly, Biodegradable Boat Care Products since the beginning in 1980, long before it ever became fashionable. We just thought it was the right thing to do, and we still do.

But they must work! Before they are allowed to wear the Aurora Label all Aurora Boat Care Products must meet the following criteria:

1. Perform as Stated on the Label
2. Provide a Benefit to the Boat Owner
3. Be Safe for the User
4. Be Safe for the Boat
5. Be Safe for the Environment

If a product fails any one of the above tests, it will never bear the Aurora brand name. We don’t see the benefit of making an Environment Friendly product with inferior performance or one that is unsafe.

You can buy Aurora Boat Care Products with complete confidence. We guarantee it!

100% SATISFACTION GUARANTEE

We pride ourselves in making the best Boat Care Products in the World. We want you to be completely happy and satisfied with the Aurora products. When you purchase Aurora Marine products we want you to recommend them to your friends with confidence.

You have our 100% Satisfaction Guarantee. If for any reason the products you purchased do not do what we say they will or you are not completely satisfied with a product, simply return it, or the unused portion, with your original bill of sale, to your Point of Purchase within 30 days, for a no hassle refund.

### ALGAE STRIP™

Removes Algae. Helps Remove Barnacles & Zebra Mussels from Fiberglass Boats

- The Original Fiberglass Bottom Cleaner.
- Easy to Use: Roll On & Rinse Clean.
- No Scrubbing - Works Chemically.
- Fast Acting Industrial Strength Inhibited. Will Not Harm Fiberglass.
- Contains Optical Brighteners for a Cleaner, Brighter Boat.
- Available in Industrial Quantity.
- Helps Remove Barnacles & Zebra Mussels.

Catalog No: 01150  
Individual unit: 450ml  
Shipping Weight: 1.25lb  
Shelf Life: 3 yrs  
Case Vol: 12 bottles  
Case Wt: 16lb / 7.26kg  
Case Dim: 10.5” x 8” W x 8” H

---

### ALGEX™

Algae Remover for Aluminum Boats, Pontoons, Out-Drives & Propellers. Ready to Use, No-fume Formula

- New & Improved Foaming Action.
- Penetrates & Breaks Bond between Algae & Aluminum for Easy Removal.
- Fast & Easy: Spray On, Pressure Wash or Brush & Rinse.
- Helps Remove Barnacles & Zebra Mussels.
- Removes Rust and Oxidation from Stainless Steel.
- Will Not Strip Factory Paint.

Catalog No: 11150  
Individual unit: 600ml  
Shipping Weight: 1.7lb  
Shelf Life: 3 yrs  
Case Vol: 12 bottles  
Case Wt: 22lb / 10kg  
Case Dim: 14”L x 10”W x 11”H
**ALUMABRITE™**

Marine Grade Cleaner & Brightener for Aluminum Boats, Pontoons, Masts & Booms

- Cleaner & Brightener for Aluminum Pontoons & Boats.
- Easy to Use: Spray On & Rinse Off.
- Use with a Brush, Pressure Washer or Garden Sprayer.
- Removes Oxidation, Soot, Soil & Water Stains.
- Concentrated for Economy.

Manufacturer Recommended

Catalog No: 01240  Industrial unit: 450ml  Shipping Weight: 1.26lb  Case Wt: 16lb / 7.3kg  Case Dim: 10.5"L x 8"W x 8"H

Shelf Life: 3 yrs  Case Vol: 12 bottles

---

**ALUMETRON™**

Fights Corrosion, Protects Aluminum Pontoons & Boats Up to 10 Years

- Easy to Apply - Clear Polymer Coating - Bonds Chemically to Aluminum.
- Protects Aluminum Against Oxidation, Stains, Streaks, Tarnish, Corrosion, Salt Spray, Road Film, Acid Rain.
- Keeps Your Aluminum Pontoons & Boats Looking Shiny & New up to 10 Years.
- Environment Friendly - Water Based - Low VOC's.
- 3 Year Warranty.

Manufacturer Recommended

Catalog No: 01260  Individual unit: 450ml  Shipping Weight: 1.26lb  Case Wt: 16lb / 7.3kg  Case Dim: 10.5"L x 8"W x 8"H

Shelf Life: 3 yrs  Case Vol: 12 bottles

Legend:

Case Vol: 12 bottles
Shipping Weight: 0.56lb
Case Wt: 8lb / 3.6kg
Case Dim: 8"L x 6"W x 8"H

WATERLINE STAIN REMOVER™
Instantly Removes Unsightly Waterline Stains from Fiberglass Boats
★ Easy to Use: Roll On & Rinse Off.
★ Works Chemically - No Scrubbing.
★ Fast Acting Industrial Strength.
★ Deep Penetrating Power: Removes the Most Stubborn Stains.
★ Safe for Fiberglass.
★ For Fresh and Salt Water Stains.
★ Rated Best: "Powerboat Reports" & "Practical Sailor".
Catalog No: 11210
Individual unit: 450ml
Case Vol: 12 bottles
Shipping Weight: 1.27lb
Case Wt: 17lb / 7.7kg
Case Dim: 10.5"L x 8"W x 8"H
**ALUMETRON MAINTENANCE & REPAIR KIT™**
Repair Abrasion Damage to Alumetron to protect your warranty.
Kit contains: BOAT CLEAN PLUS, MARINE POWER MITT, ALUMABUFF, ALUMETRON.
Catalog No: 01570

**CANVAS SHIELD WATERPROOFING KIT®**
Clean and waterproof your marine fabrics with the latest marine fabric cleaner and marine canvas waterproofing technology
Kit contains: CANVAS SHIELD, FABRI-KLEAN.
Catalog No: 11390

**INFLATABLE BOAT CARE KIT™**
Clean, Restore, Protect and Anti-Foul your RIB or Inflatable Boat.
Kit contains: SPEED CLEAN, MARINE POWER MITT, POLY GUARD, REPELIN.
Catalog No: 01470

**INFLATABLE BOAT MAINTENANCE KIT™**
Basic kit to clean, restore and protect your inflatable tube.
Kit contains: SPEED CLEAN, POLY GUARD.
Catalog No: 01480

**PONTOON KIT™ (3 Year Warranty)**
Clean, Brighten and Anti-Foul your pontoons with this kit.
Kit contains: ALUMABRITE, ALUMETRON, VS721 BOTTOM COAT.
Catalog No: 01480

**STAINLESS SHIELD KIT®**
Clean, Brighten and Passivate in minutes.
Clear Coat protects against Rust, Corrosion, Pitting.
Kit contains: QUICK SILVER, STAINLESS SHIELD, BOAT CLEAN PLUS.
Catalog No: 11360

**SHINY BOAT KIT™**
Clean, Restore and Polish your fiberglass boat to a brilliant shine with this complete kit.
Kit contains: BOAT CLEAN PLUS, BOAT SCRUB, MARINE POWER MITT, PREMIUM BOAT SHINE.
Catalog No: 01440

**PREMIUM SURE STEP DECK PROTECT KIT™**
New & Improved Sure Step with Nano Technology shines and protects your deck with a non slippery sealant that lasts all season. Kit contains: BOAT CLEAN PLUS, BOAT SCRUB, 2X SURE STEP, BUFFING WHEEL, ARBOR ADAPTOR, APPLICATOR ROLLER.
Catalog No: 01372

**SURE STEP DECK PROTECT KIT™**
New & Improved Sure Step with Nano Technology shines and protects your deck with a non slippery sealant that lasts all season. Kit contains: BOAT CLEAN PLUS, BOAT SCRUB, 2X SURE STEP, BUFFING WHEEL.
Catalog No: 01370

**VS721 FOULING RELEASE KIT™**
Clear protection for your boat bottom. Reduces fouling attachment, makes clean up easier, prevents osmosis blisters on fiberglass, improves performance, reduces fuel consumption.
Kit contains: BOAT SCRUB, MARINE POWER MITT, VS721 BOTTOM COAT.
Catalog No: 01490

**VINYL CARE KIT™**
Tough cleaner safely removes ground in dirt and grime without rotting threads or leaving pink spots. Advanced Technology protector is not greasy or slippery and protects against UV, suntan lotion, dirt, all season long.
Kit contains: EZ VINYL CLEANER, VINYL GUARD.
Catalog No: 01520

ACCESSORIES

ALUMABUFF PAD KIT™
Specially designed to be used with a LINEAR BUFFER and ALUMABUFF to quickly and easily clean stains, streaks and white cloud from aluminum boats and pontoons, without destroying the mill finish.

VELCRO STRAP™ - Replacement Part
Genuine Velcro Replacement Strap attaches to foam buffing block on LINEAR BUFFER, to hold ALUMABUFF PADS in place for buffing.

LINEAR BUFFER™
Power Point Professional Quality
Use With ALUMABUFF to Quickly Remove Stains & Streaks from Aluminum. It Saves Time & Labor. You too can buff all the stains, streaks and oxidation from a 22 ft. pontoon in as little as 60 minutes. A LINEAR BUFFER moves back and forth in a straight line, so it works parallel to the grain. It cleans and polishes without cutting across the grain. Restore the original silver finish without grinding away the top layer of aluminum.
Eligible for EXTENDED WARRANTY

MARINE POWER MITT™

SURE STEP BUFFING WHEEL™
Premium 6" Sewn Cotton Power Buffing Polishing Wheel. 1/2" Arbor Hole (Arbor not supplied). Use with portable drill for buffing SURE STEP non-skid deck polish. Double thick, 80 ply construction, gives superior results and reduces buffing time.

SURE STEP BUFFING WHEEL ARBOR - DRILL ADAPTOR™
Required to mount SURE STEP buffing wheel with 1/2" hole to 3/4" chuck on portable drill.

Ask the Skipper™

The knowledge gained from over 38 years of hands on experience in designing, building, maintaining and restoring boats is available to Aurora Marine Club Members, just for the asking.

Richard Kittar (aka: Captain Aurora), the President and one of the founders of Aurora Marine Industries Inc., is the author of this blog. He has dedicated almost 4 decades to inventing and developing unique and effective solutions to boat maintenance that has no equal today. If he doesn’t know the answer to your question, he will try to find it... or return to the lab and invent a solution!

Anyone can freely access the Ask the Skipper blog in the Aurora Marine Club to read information. With over 2.7 Million Views (at the time of this writing) it’s proven to be the most popular site on the internet for boat maintenance information. There are over 800 posts so you’re sure to find the information and tips from the professionals you need to get your boat looking new and the envy of all who see her.

If you can’t find what you are looking for, join the Aurora Marine Club and submit your question. The Skipper will get back to you with the answer.

Bulk Quantities

Most of our products are available in gallon sizes for boat owners that wish to buy in bulk to save money or those with bigger boats or reoccurring needs. All of our products have a shelf life of 3 years so you can safely buy quantities to last for more than one season.

Find a Dealer

Our network of Authorized Aurora Boat Care Dealers continues to grow around the world. For the name and location of the Aurora Dealer nearest you, visit the “Find a Dealer” section on our Website. Not all dealers carry the full range of our products, as it’s quite extensive, but if you ask, most will be happy to bring in what you want, and continue to stock it for your convenience. If you don’t ask them, they don’t know what it is that you are looking for.
So, What’s a PFOA?
And What’s The Big Deal?

No, it’s not a new form of algae or a strange bug. PFOA is the acronym for Perfluorooctanoic Acid, C8H15O2, which is a chemical used in the production of PTFE, Teflon™, for water proofing canvas and other outdoor fabrics. As the PTFE material breaks down, it releases PFOA into the atmosphere. Some products are intentionally made with PFOA.

It was discovered that PFOA has been found in the bloodstream of over 98% of American men, women and children. No one is exactly sure how it made its way into the bloodstream of such a large number of people, but the EPA is now pressuring industry to eliminate its use.

The study has shown that PFOA was still present in the human body approximately four years after exposure and that levels were only reduced by approximately one half. PFOA has been implicated in causing cancer of the pancreas, testicles, liver and mammary glands. It’s also been linked to miscarriages, thyroid problems, low birth weights and weakened immune systems.

Aurora Marine’s latest discovery CANVAS SHIELD™ fabric guard is a new Waterproofing coating for marine and other outdoor fabrics and clothing that does not use PTFE, Teflon or Silicone. The secret is that it utilizes Nanoized Polymers and is completely PFOA free. It’s also a much greener alternative; it’s nontoxic, nonflammable when dry, VOC compliant and safe for most natural and synthetic fabrics.

CANVAS SHIELD fabric guard penetrates deep into the fabric to coat and protect each thread, rather than just residing on the surface, so it continues to protect against water migration when the surface coating is worn away from washing, abrasion and environmental degradation. Even though water no longer beads on the surface, your marine canvas still remains waterproof if protected with CANVAS SHIELD fabric guard. The fabric maintains its natural breathability, flexibility and color, even after repeated application. Re-application is recommended annually or when the fabric finally loses its waterproofing ability.

In addition to waterproofing, it also resists stains, mold, UV and color fading.

For best results, the fabric must be clean, dry and free of surfactant residue from soap or detergents. Aurora has also developed FABRI-KLEAN™ fabric cleaner, specifically for pre-cleaning fabrics prior to treatment with CANVAS SHIELD fabric guard and for regular maintenance. FABRI-KLEAN is a free rinsing, concentrated, low sudsing and environment friendly, water based and water activated cleaner with deep penetrating power to clean the threads, not just the surface. It’s effective at removing oil based as well as organic soil such as airborne pollutants, bird droppings, dirt, mold, even grass stains and fish blood. Wet the surface first and spray a bit of the environment friendly concentrate onto the surface, agitate it with a brush and rinse it clean. It’s free rinsing so there is no residue to affect adhesion. When dry, spray on two coats of CANVAS SHIELD fabric guard and allow to cure for 24 hours. Enjoy your waterproof canvas.

Maintenance is easy. Just rinse dirt off with a garden hose. If tough stains, such as bird droppings remain, we recommend washing with FABRI-KLEAN. When washed with free rinsing FABRI-KLEAN, CANVAS SHIELD can withstand multiple washing before re-application is required.
